

BUTYL HURRICANE

TARP TAPE

Meets FEMA Blue Roof Specifications

TITE SEAL BUTYL HURRICANE TARP TAPE is a polypropylene roofing tape with a butyl rubber roofing adhesive that meets FEMA guidelines per section 4.5, ROOFING TAPE FOR OPERATION BLUE ROOF. It is waterproof, weatherproof, UV resistant, and capable of withstanding temperatures from -35°F to 180°F.

INTENDED USE: Tite Seal Butyl Hurricane Tarp Tape can be used to seal plastic sheeting around pipes, conduits, and other protrusions. It can also be used to repair punctures and tears in tarp material, and to seal the entire edge of the tarp. Tite Seal Butyl Hurricane Tarp Tape can also be used as a window and door flashing, or anywhere a quality roofing tape is needed.
